They say that you never forget your first love and it's true. Reading was, is and always will be my first love. I rarely go anywhere without a book, just in case. Vacations usually require an extra bag for reading material. I love reading and I love books; the way the pages feel as I turn them, the weight of the book in my hand and yes, even the smell of the paper.

My reading interests range from classics to contemporary. Mysteries are my all-time favourite genre from cozies to police procedurals to historical mysteries. I love classics. I enjoy well-researched historical fiction. I also like reading non-fiction, mainly history and biographies.
